PROFESSIONALLY COORDINATED  
COLOR SCHEMES

Color Essence Exterior colors provide rich, contemporary combinations to enhance the home exterior. This palette offers the most popular colors found in home decor today while retaining the integrity of time honored traditional colors. A wide range of colors are provided: warm neutrals including sandy yellows and beiges are paired with brick or teal for brighter impact reminding one of southern climates. Muted earthtones represented by grayed greens and washed blues are paired with variations of dark green, brown and gray to heighten the ever increasing environmental awareness.

The colors here are grouped showing a body color and a suggested trim and accent. Choose a combination from the existing schemes, or create a personal scheme assembling preferred colors from other combinations.

These samples approximate as closely as possible the actual paint color. However, color appearance may vary by degree of gloss, texture, size and shape of area, lighting and method of application, as well as by exposure to heat and light rays, plus the age of the color chip itself.
