COLORS FOR INTERIOR LIVING

Enhance any room with this collection of popular softly subdued interior colors. The choice colors on this palette were selected to fit the trends of the 90's with its potpourri of styles. Peaches, pinks and yellows create a warm, glowing atmosphere reminiscent of past days. Washed blues, seascape greens, and hushed lilacs have a soothing effect and lend to the awareness of environmental issues.

An assortment of light neutral earthtones has also been included to coordinate with the brighter colors. The softened value of these colors allows them to interact without contradiction. Today's decorating style brings many colors together for an eclectic look, and the colors presented in this palette are meant to complement a variety of textures and colors found in today's home.
